TUD CONSTRUCTION CONTINUES IN THE BIG HILL AREA TRAFFIC DELAYS THE WEEK OF JUNE 28, 2010

SONORA, CA: Tuolumne Utilities District with the assistance of Mazingo Construction continues construction work as it works to replace pipeline and improve water delivery and overall quality of service for the Big Hill area.

Traffic delays can be expected between Lower Cedar Crest and Red Clay Roads for the entire week of June 28 to July 2, 2010. Working hours will be normally from 7 am to 4 pm, Monday through Friday. Since many of the roads in the project area are narrow, windy, and steep the District is asking residents to be patient and understanding so that the Contractor can progress as quickly as possible. Please be prepared for traffic delays of up to 20 minutes (generally delays will be less.)

The Tuolumne Utilities District currently serves over 44,000 Tuolumne County residents. The District currently owns and operates 15 water treatment plants, 71 treated water storage tanks, two wastewater treatment plants, approximately 57 miles of open ditches and 330 miles of treated water pipeline.
