### TUD CONSIDERS ISSUING WATER CONSERVATION MEASURES

SONORA, CA: Tuolumne Utilities District (TUD) crews discovered Sunday, July 25<sup>th</sup>, a break in the Eureka ditch system near Confidence. The break was temporarily repaired by TUD maintenance crews. This ditch section conveys water to customers to Ponderosa Hills and Tuolumne City and eventually to the Roaches ditch.

Due to the break TUD customers in Ponderosa Hills and Tuolumne may be asked to conserve water while District engineers work to provide a long-term solution to this project. TUD will monitor the water flows daily to determine if water conservation is required. If requested, Tuolumne Utilities District will ask customers in Ponderosa Hills and Tuolumne City to limit outside watering and excessive water usage. TUD would like to alert customers that if they receive ditch service on the Eureka and Roaches ditch distribution system, that there will be intermittent water this week as crews work to repair this section of ditch.

For more information, please contact Lisa Westbrook, Customer Services Supervisor at ext. 501.

The Tuolumne Utilities District currently serves over 44,000 Tuolumne County residents. The District currently owns and operates 15 water treatment plants, 71 treated water storage tanks, two wastewater treatment plants, approximately 57 miles of open ditches and 330 miles of treated water pipeline.
