ROAD CLOSURES IN BIG HILL AREA

SONORA, CA: Monzingo Construction who is overseeing water line improvements in the Big Hill area for Tuolumne Utilities District (TUD), will begin trenching in the Quail Mine Road/Big Hill Road intersection starting on Tuesday, August 10, 2010.

Residents in the Big Hill area can expect road closures on Quail Mine Road starting on Tuesday, August 10th. Road closures will continue in the area, including Lower Quail Mine and Upper Quail Mine Road for the next two weeks. Working hours will be normally from 7 am to 5 pm, Monday through Friday. Since many of the roads in the project area are narrow, windy, and steep the District is asking residents to be patient and understanding so that the Contractor can progress as quickly as possible. Please be prepared for traffic delays of up to 20 minutes (generally delays will be less.)

The Tuolumne Utilities District currently serves over 44,000 Tuolumne County residents. The District currently owns and operates 15 water treatment plants, 71 treated water storage tanks, two wastewater treatment plants, approximately 57 miles of open ditches and 330 miles of treated water pipeline. For more information or questions regarding this project, please contact Lisa Westbrook, Customer Services Supervisor at ext. 501 or Erik Johnson, Associate Engineer at ext. 520.
